

HINGE 1 · SERIES 01

HINGES CATALOGUE

RANGE Hinges, tower bolts, magnets and latches, brackets, door
closers, channels and kitchen fittings

MATERIAL Stainless steel · Mild steel · Aluminium · PVC

LINES 421 coded lines across 33 product pages

ABOUT US

We're a Brisbane-based, Australian-owned hardware company here to add value to the businesses we supply. We work on the supply chain itself — how hardware is specified, made, shipped, and delivered — so the trade gets a better standard of product and a better standard of service.

Hard Hardware was founded in Brisbane in March 2026. We run our own production program: we write the specifications against Australian standards, and every line is built to those specifications and to the quality standard we set. We inspect each consignment before it ships, clear it through the Port of Brisbane, and sell it under our own name with full Australian compliance labelling on every pack.

Owning that chain end to end means we control what goes in the box. Material grade, thickness, finish, pack count and carton quantity — each one is set by us in writing before production starts, then checked twice: once at the factory before the consignment is released, and again on arrival in Brisbane before stock goes out to customers. Where a line does not meet the specification, it does not get sold.

That responsibility does not stop at the dock. If something is wrong — a count, a finish, a size that does not fit the job — you deal with us directly, not with a chain of suppliers pointing at each other. We answer for it and we fix it. Give us a try and you'll find what has been missing in service.
